

Coraille Shell Chair

The Coraille shell chair is the ideal solution for individuals who need additional seating comfort but still require the ability to be easily moved within the home or facility. It has a sturdy steel construction, with 32mm epoxy coated frame. The Coraille is available in different seat widths to ensure an optimal fit for the individual user.

The multiple comfort features include a higher backrest to better support tall users, padded removable headrest, adjustable padded calf support for correct leg length, 8cm seat cushion, 40° tilt in space and adjustable footrest angle. The larger rear wheels make the chair easily manoeuvrable with a convenient foot operated drum brake.

- Epoxy coated steel construction
- Large rear wheels
- Padded removable headrest
- Foot brake at rear
- Seat height options
- Removable covers for easy cleaning
- 40° Tilt in space
- Optional spring loaded footplate
- Optional table - remains level during tilt
- Optional 5 point safety belt
